CORMETECH METEOR™

A Multi-Pollutant Emissions Control all-in-one Product with excellent **NO_x**, **CO**, and **VOC** reduction across wide temperature ranges with low NH₃ Slip.

The Benefits:

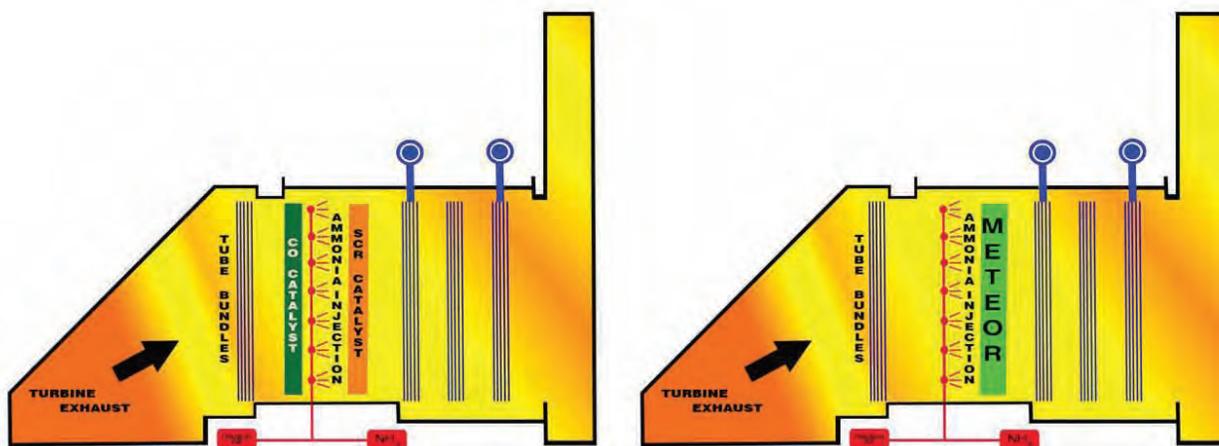

* Asset Optimization

- * Ultra Low Pressure Loss Yielding Enhanced Efficiency
- * Increased Load Flexibility
- * Low Total Lifecycle Cost (Capital and Operating)

* Improved Plant Operational Maintenance

- * Low SO₂ to SO₃ Conversion → Reduced Cold-End Fouling
- * Mechanical and Chemical Durability → Reduced Catalyst Actions
- * Sulfate Resistant

Whether you are planning a new unit or managing an existing unit - contact CORMETECH today to explore how CORMETECH METEOR™ can help you

Multifunction Emissions Technology Engineered for Optimized Reliability
